Massachusetts Owners Title Insurance Details

First time buyers often ask about owners title insurance, what it is, and whether they should buy it. Lenders title insurance is required with most mortgages, however, owners title insurance is traditionally optional. Buyers should consider the features and decide for themselves on whether the expense is worthwhile given the costs and coverage. The following are Massachusetts owners title insurance details.

Title Searches Are Not Perfect

Before closing, a title search is always performed by a title company. This determines that no other party has a right to the home (based on records on file) and that the title is available to be transferred to a new buyer. The title search is not fool proof and may not identify hidden risks in the title. Owners title insurance will protect you against title issues and the legal fees associated with protecting your rights to home.

Owners Title Insurance Coverage

Owners title insurance is a single charge at closing that will remain valid for the entire time that you retain ownership of the property. You can buy it at a later time, but it is normally less costly when bought at closing. The fee is based on the amount of the loan.
